Disabled Worker, Spouse, and Child(ren)	\$2,720

Portion of SS Benefits Taxable where MAGI Exceeds Limits

Married—Joint	50%	\$32,000
	85%	\$44,000
Married—Separate	50%	\$0
	85%	\$0
All Other	50%	\$25,000
	85%	\$34,000

Required Minimum Distribution (RMD)

Calculate RMD by dividing the account balance at the end of the prior year by the RMD factor for the current year. If assets are invested in a deferred annuity, the actuarial present value of additional benefits (if applicable) should be added to the contract value before dividing by the RMD factor.

Required beginning date (RBD) is generally April 1 of the year after reaching age 73 (or the year of retirement, if later, in the case of some qualified plans). Distributions are not required from a Roth IRA until after the death of the owner. The Roth owner is always treated as dying before the RBD. (For more information refer to IRS Publication 590-B, IRAs).

Lifetime Distributions

Generally, use the Uniform Lifetime table. If the spouse is the sole designated beneficiary and more than 10 years younger, use the Joint Life and Last Survivor Expectancy table (IRS Publication 590-B).

Distributions after Death of Owner

Under the SECURE Act, there are three “categories” of beneficiaries, each with their own payout rules:

Not a Designated Beneficiary:	
Participant's estate	5-year rule if participant dies before RBD, participant's remaining life expectancy if participant dies after RBD
Charity	
Non-see-through trust	
Designated Beneficiary:	
Individual	Must withdraw benefits within 10 years of participant's death
See-through trust	
“Eligible” Designated Beneficiary:	
Participant's spouse	Payout over beneficiary's life expectancy
Participant's minor child	
Disabled/Chronically ill beneficiary	
Beneficiary <10 years younger than participant	

RMD Tables

Uniform Lifetime			Single Life Expectancy			
Age	Factor	%	Age	Factor	Age	Factor
72	27.4	3.7	0	84.6	60	27.1
